ABOUT

Determined to keep learning and expanding my skills as full stack developer. When I am not proficient, I research and can learn skills, and problem solve on my own. With that, I do love working in a group setting where many minds can amplify each other's strengths, and make up for each other's weaknesses!

PROJECTS

FRIENDZONE
Social media app created by a team of 3

- Users can sign-up, sign-in, find friendship matches based on gender and Interests, and connect
- Uses Bycrypt, Cloudinary, Sequelize, Express, Handlebars, and Multer
- Deployed at my-friendzone.herokuapp.com

TECH BLOG
Blogging website

- Users can sign-up, sign-in, create, edit, and comment on blog posts
- Uses Bcrypt, Sequelize, Express, and MySQL2
- Deployed at powerful-taiga-46589.herokuapp.com

REGEX TUTORIAL
Matching an email

- Written tutorial that explains each aspect of this regex
- Find it in my GitHub gists, gist.github.com/Emilykidd3/
